**CUSTOM PORTABLE PLANTS
BUILT TO OPERATE IN THE
TOUGHEST CONDITIONS**

**BUILT WITH A HIGH STANDARD OF
QUALITY, INTEGRITY, AND SAFETY**

EXPECT THE BEST IN CUSTOMER SERVICE AND CUSTOMIZATION

EXPECT THE BEST IN CUSTOMER SERVICE AND CUSTOMIZATION

DESIGNED + BUILT TO THE LIMIT!

The most comprehensive Portable Plants to fit your transport constraints, and still deliver your crushing, screening, and conveying needs. Vale Plants are purpose-built heavy structural chassis that last.

Vale Portable Plants are set up for processing equipment from all major manufacturers including Astec, Superior, Terex, Metso, Lippman, ISC, Sandvik, EIW. All Vale Plants are built with premium conveyor components from PPI, Luff, Superior, and Martin; drive components from Dodge and WEG.

DESIGN

- ▶ Plant layouts and transfer points to maximize run-time.
- ▶ Customer integration - your involvement delivers what you want.
- ▶ Complete the 3D model design process - see what you'll get before it's built.

ENGINEER

- ▶ Conveyor analysis performed for each specific application.
- ▶ Completely engineered equipment specific to each build.
- ▶ Conveyor design software utilized for all conveyor belts.

BUILD

- ▶ Built complete - full PDI and functionality tested.
- ▶ Built to your standards, achieving all the details.
- ▶ Built to your approval. Built to your satisfaction.

THE VALE ADVANTAGE

1

SAFETY + MAINTENANCE

Complete plant maintenance considerations that accommodate guarding packages in compliance with national, provincial, and state requirements.

2

QUALITY

Every Vale Plant is built with North American made premium components to perform for you in your toughest conditions.

3

TRANSPORTABILITY

Every Vale Plant is built to rapidly deploy from or mobilize to your jurisdictional transport requirements.

RIP RAP PLANTS

RECLAIM YOUR VALUE

A Vale built Rip Rap Plant can be used to reclaim your oversized rocks and turn them into revenue.

Having problems with large rocks making their way to your downstream equipment - add a Rip Rap Plant to help scalp them out and save your equipment from the abuse. Our Rip Rap Plant is intended to deal with 24" minus material.

Set this up with a pair of Vale 4865T Rip Rap Conveyors and build a stockpile that pays.

RIP RAP PLANTS | **BENEFITS + FEATURES**

Our plants include large VGF Hoppers sized to accommodate large capacity loader bucket feeds to **boost your outputs.**

Include a Tipping Grizzly to remove oversize material. Grizzly **removable for transport.**

Include a Stationary to **remove oversize material.** Grizzly removable for transport.

Utilize Cross Conveyors to **remove bypass or sized products.** Add blend chutes to add back to your downstream process.

Remove large material with ease.

RIP RAP

Vale Rip Rap Plants are built with up to 1" thick hopper walls and heavy 3/4" thick chutes to take the abuse. Designed and built with up to a two-stage VGF to most efficiently manage your downstream feeds.

A 42" cross folding Cross Conveyor with a dual impact bed will handle your 6" minus undersized product efficiently. Feed into the large volume hopper with any size loader. Add a Tipping Grizzly to clear any rocks 24" or larger from your feed. Large oversized product exit through discharge chutes.

CONFIGURATIONS + SIZES	
VGF	Astec, Terex, Superior, Lippman, Sandvik
VGF Sizes	40"-60" x 16'-24' VGF's
Grizzly	1 Stage or 2 Stage
Cross Conveyor	# of Cross Conveyors = 1 - 42"

**Contact us for alternative sizes or configurations to meet your needs*

CUSTOM PORTABLE PLANTS BUILT TO OPERATE IN THE TOUGHEST CONDITIONS

All Vale Plants are built with premium conveyor components from PPI, Luff, Superior and Martin; drive components from Dodge and WEG; or customize to your preference.

Custom paint colours available.

- Designed specifically for each unique stone, sand, and gravel application.
- Work with our design team and view your custom plant before it's built.
- Build what you need.
