POSITION OVERVIEW			
POSITION TITLE	Intermediate Design Engineer/Technologist	DEPARTMENT	Corporate
REPORTS TO	Engineering Manager	VERSION AND DATE	V2 010423
TERM TYPE	Permanent Full-Time	LOCATION	Indian Head, SK

About VALE:

Vale Industries Ltd is a manufacturer of engineered products and equipment for the agricultural, aggregate, mining, and related sectors. With roots in steel manufacturing going back 30 years, Vale knows how to deliver solid solutions and exceptional value for our customers. Our management team has over 100 years of practical, hands-on experience in engineering, manufacturing, and business management, focused on leading Vale's next phase of strategic growth. At Vale, we uphold a high standard of quality, integrity, and safety to demonstrate our commitment to our employees, customers, suppliers, and community.

Job Summary:

Do you love to troubleshoot problems? Perhaps you have been tinkering around on the farm and have mechanical know-how? Or maybe you are already designing grain handling/storage products or other short line products and are looking for a new opportunity!

Vale Industries is hiring! Preference given to individuals with design experience using Inventor or Solidworks with a background in agriculture.

Vale offers competitive wages, family-like workplace culture, and a handsome benefit package.

Apply with cover letter including why you believe that you are the right person to help us move to the next level.

Duties and Responsibilities:

- Develop and direct detailed plans to accomplish goals and technical activities
- Direct and review product designs and changes
- Work within and contribute to policies, standards and procedures for the engineering and technical work performed within the company
- Provide Technical support for the manufacturing process
- The performance and quality of Vale products within their respective industries
- Technical Product support for all equipment already in operation
 - Solve, Produce and Implement Solutions
- Provide direction to junior members of the engineering team
- It is the expectation that the successful candidate for this position help promote a safe and positive work environment
- Work collaboratively with other members of the team
