

# STEEL MANUFACTURING FOR THE AGGREGATE + MINING SECTOR

**EXCEPTIONAL STANDARDS**

## ABOUT VALE

Vale Industries is a diversified steel manufacturing company located in Indian Head, SK, Canada. Comprised of a rich history of providing successful portable and stationary solutions for industry problems.

Vale Industries is continually looking to take on new challenges in fabrication and manufacturing within aggregate, quarrying or mining industries.

## THE VALE EXPERIENCE

At Vale, we uphold a high standard of quality, integrity and safety. These values shine through in everything we do. When you use our products, you can expect reliability backed by industry-leading support and unmatched service.

## OUR SYSTEMS AND PROCESSES

Vale's core capabilities include engineering, 3D modeling, manufacturing drawings, fabrication, welding, painting, final assembly and trucking. Our partners in these capabilities include the Safety Association of Saskatchewan Manufacturers, the Canadian Welding Bureau, Global Shop Solutions, and the Association of Professional Engineers & Geoscientists of Saskatchewan.

Quality Assurance and Quality Control is a key pillar in our safety-production-quality balanced approach to business. We achieve our results through in-house processes including engineering, design, receipt and production inspection, and final assembly function testing.

## 1 BULK MATERIALS HANDLING

Vale custom engineers and manufactures stationary bulk material handling equipment to your specifications. Hoppers, feeders, and grizzlies for all applications.

## 2 CONVEYORS

Ground-based belt conveyors for yards and overland applications. Stackers for efficient stockpiling. Process plant conveying, structures and chute-work.

## 3 CONTRACT MANUFACTURING

Ability to manufacture production-type products in large volumes.

## 4 CUSTOM MANUFACTURING

From provided manufacturing drawing sets we can produce custom manufactured steel components. Services include Fabrication, Paint, and Assembly.

## 5 SUBCONTRACT SERVICES

With nearly 100 staff we have the capacity to turn around large projects very proficiently.

### INTEGRITY

We lead with honesty and consistency in everything we do.

### QUALITY

Engineered with the end user in mind.

### SAFETY

Wherever you work, your safety is our priority.
