

The **GRAIN GIANT™** has been designed to maximize harvest efficiency.

TESTIMONIALS

"This year we decided to hire out all our trucking. We trained the truckers to load themselves and they loved it! My combine didn't stop all season for lack of trucks. Worked awesome!"

Elliot Thiessen
Three Hills, Alberta

"Worked awesome. Did just what it was supposed to. Didn't have to wait on trucks"

Jeff Trewin
Waskada, Manitoba

"The key point for us is we don't have to shut down a combine to truck, can keep both combines running until its too tough and then truck in the morning while waiting for the conditions to improve to resume combining again. So keeps us fully productive through running conditions"

Geoff White
Weyburn, Saskatchewan

GRAIN GIANT™

OVERVIEW

The Grain Giant™ was designed for the producer who is looking to raise the bar on productivity on their farm. The Vale Grain Giant™ is the evolution of decades of experience combined with a vision to drive efficiency at harvest time and engineered to withstand the harshest environment with heavy duty materials and ingenious design. The Grain Giant™ has been proven in Canada and Australia.

Grain Giant™ Maximize Your Harvest.

BENEFITS

- ▲ Increases combine runtime by eliminating the need to wait on grain cart or trucking availability
- ▲ Increases safety by enabling truck driver to follow a steady rhythm in load/haul/unload as combine or grain cart unloads into Grain Giant™
- ▲ Increases holding capacity to haul grain direct to terminal, while combines run at peak efficiency
- ▲ Increases blending capabilities
- ▼ Reduces wear and tear on tractor and cart by running at a safe and steady pace – eliminate the spikes
- ▼ Reduces labor force
- ▼ Reduces the number of trucks hauling
- ▼ Reduces soil compaction by using smaller grain carts and tractors
- ▼ Reduces the pressure to speed back to the field or the storage yard

SPECIFICATIONS

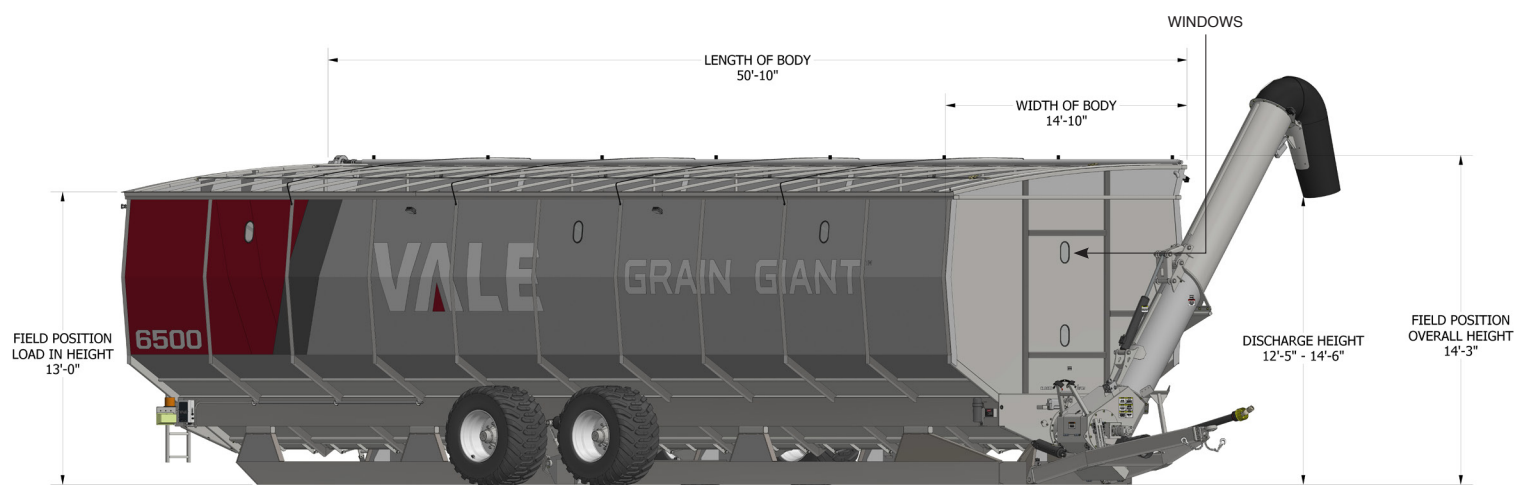

- Three year structural limited warranty
- Tandem suspension ensures a smooth ride during transport benefiting the operator as well as reducing shock load on bin
- High flotation tires help to transport across soft fields, while reducing compaction
- Front and rear flow adjustable grain doors allow the operator to control speed of grain flow
- Full length clean out doors
- Light kit for enhanced night vision
- Well placed camera kit displays real time progress
- Remote control kit
- Adjustable poly spout to adjust grain flow exactly where desired
- Height adjustable drawbar to allow smooth transportation through approaches and uneven ground
- Full length unobstructed internal walkways ensuring safety and convenience for the operator and ease of clean out for storage
- Twenty two inch auger for efficient unload capacity
- Sight windows to ensure the operator can check bin level
- Side door for safe and convenient access
- Easy to operate remote control roll tarp by Michels® with proven dependability

TECHNICAL SPECIFICATIONS

-  **UP TO 550 BUSHELS/MIN**
-  **6500 BUSHEL CAPACITY**
-  **UP TO 14'9" AUGER REACH**
-  **45° ADJUSTABLE DISCHARGE SPOUT**

OPTIONAL FEATURES

- Heavy Duty Braked Axles
- Load Cells
- Matched Color Wrap

TIRES
700/50 X 26.5

CAPACITY	6500 BUSHELS
OVERALL TRANSPORT WIDTH	14'10"
OVERALL TRANSPORT HEIGHT	16'
OVERALL LENGTH	61'4"
LENGTH OF BODY	50'10"
UNLOAD RATE	UP TO 550 BUSHELS/MINUTE*
DISCHARGE HEIGHT	12'4" – 14'9"
TIRES	700/50 X 26.5
LOAD IN HEIGHT	13'

* **Varies by crop**
